DDA Memo, 4 Apr 51

Auth: DDA REG. 77/1765

Date: 28 Feb 51 By: 022

25 January 1951

MEMORANDUM FOR: Chief, TRD.

THROUGH: Chief, ATB. *Bom*

SUBJECT: Maritime Training Program.

REFERENCE:

- a. Your memo of 22 January 1951.
- b. Memo dated 19 December 1950 from Chief, TRD to Chief, Staff II, OPC, Subject: "Request for Liaison—Maritime Training."
- c. TS memo dated about 27 December 1950 to Chief, Staff II, OPC, Subject: "Maritime Operations."

1. Reference a. required inquiry and report on action taken by OPC pursuant to the requests and recommendations of references b. and c.

2. On 24 January I conferred at some length with [REDACTED] 25X1A9a
II/SA/TR and [REDACTED] on these matters. I
found that:

a. Some misunderstandings existed among those concerned as to the action taken concerning reference a.

b. No positive action had been taken on reference a.

c. Apparently no action had been taken on reference b. The subject matter presented therein was not discussed since its implementation depended upon favorable action on reference a.

d. Apparently OPC has no concrete ideas at present regarding employment of maritime operations or training related thereto.

3. In his memos of 11 January and 12 January, the Chief, Staff II, OPC has indicated that efforts to create a training program should not be commenced until after over-all training requirements have been established. In theory that concept is valid; in practice, under latent emergency conditions, it is defective because:

SECRET

- a. Considerable time will inevitably be lost in determining these requirements.
- b. Without a crystal ball, these requirements would be based upon essentially unfounded guesses.
- c. It is doubtful if an adequate appreciation of the full potentialities of maritime operations exists throughout OPC at the present time.
- d. Considering the time requirements to establish even a modest training program, it is probable that requirements would be changed before appreciable training was in progress.

The above opinions were expressed to those present.

4. At the conclusion of our discussions, [REDACTED] indicated he was going to discuss the matter promptly with Chief, Staff II, OPC, and [REDACTED] stated we would be informed in the near future as to OPC's intentions.

25X1A

5. It is felt that satisfactory results will be achieved only after direct lines of action between those most immediately concerned have been activated. The quotation below is extracted from a memorandum, submitted under circumstances similar to those obtaining at present, from [REDACTED] to General Donovan. While not necessarily valid in the current situation, it is pertinent.

"I do feel we make very slow progress compared with the [REDACTED] and that this office has suffered a good deal by having to go through a large number of channels, none of which had any experience in our field and merely delayed the prosecution of our work."
